

JDPAC Dress Code:

The studio has a unique dress code for each class. Dress code is mandatory. We believe that the intent that goes into a dancer preparing for class leads to pride and attention to detail in class and an understanding of the importance of the traditions that we follow in dance. Following this guideline establishes a sense of professionalism in class, helps unify students, diminishes economic and social barriers between students, increases a sense of belonging and studio pride, and improves attendance.
